SUMMARY

Information Technology undergraduate with a strong foundation in Data Structures & Algorithms, problem-solving, and software development. Passionate about teaching, mentoring, and helping students build strong programming fundamentals. Actively solving coding problems, developing technical projects, and creating educational content. Seeking a Teaching Assistant Internship at GeeksforGeeks to contribute to student success while enhancing technical and communication skills.

EDUCATION

Jabalpur Engineering College, Jabalpur

Bachelor of Technology (B.Tech) – Information Technology

2024 – 2028

EXPERIENCE

Data Structures & Algorithms Experience

- Actively solving DSA problems and strengthening algorithmic thinking through regular coding practice.
- Solved problems involving: Rotate Matrix by 90 Degrees; Merge Overlapping Intervals; Merge Two Sorted Arrays; Find Duplicate Number; Find Missing and Repeating Number; Count Inversions in an Array
- Developed understanding of: XOR-based problem solving; Merge Sort applications; Binary Search optimization; Time and Space Complexity Analysis
- Consistently improving coding proficiency through daily problem-solving challenges and interview-style questions.

Entrepreneurship Cell (E-Cell)

Jabalpur Engineering College

Leadership & Content Creation

- Contributed to content writing initiatives and awareness campaigns.
- Created written content and blogs for entrepreneurial activities.
- Collaborated with team members on event promotion and engagement activities.
- Developed communication, presentation, and teamwork skills.

PROJECTS

Shelf-Share (Ongoing Startup Project)

- Developing an online platform for sharing and exchanging books among readers.
- Aims to reduce book acquisition costs and encourage the reuse of educational resources.
- Responsible for product planning, feature design, and development.
- Focused on creating an accessible platform that connects book owners with readers.

Full-Stack JavaScript Mini Projects

- Developed interactive applications using JavaScript fundamentals: Color Changer; BMI Calculator; Real-Time Digital Clock
- Improved understanding of DOM manipulation, event handling, and frontend development concepts.

TECHNICAL SKILLS

Programming Languages: C++, JavaScript, R Programming

Data Structures & Algorithms: Arrays, Strings, Linked Lists, Stacks, Queues, Hashing, Recursion, Binary Search, Sorting Algorithms, Two Pointers, Matrix Manipulation
Web Development: HTML, CSS, JavaScript, React.js (Basics), Node.js (Basics), REST APIs
Computer Science Fundamentals: Object-Oriented Programming (OOP), Database Management Systems (DBMS), Problem Solving, Competitive Programming
Tools: Git, GitHub, VS Code

CERTIFICATIONS

Data Science for Engineers — NPTEL | Jul 2025 – Sep 2025

CERTIFICATIONS DETAILS

Completed comprehensive training in Data Science fundamentals. Learned statistical concepts, data analysis techniques, and R programming. Strengthened analytical and quantitative problem-solving abilities.

RELEVANT STRENGTHS FOR TEACHING ASSISTANT ROLE

Strong Problem-Solving Skills; Ability to Explain Technical Concepts Clearly; Technical Content Writing; Student Mentoring Mindset; Communication & Presentation Skills; Quick Learner; Team Collaboration; Responsible and Detail-Oriented
